### SUMMARY

---

Skilled web development specialist with six years of experience working in content management systems like Drupal and Wordpress. Adaptable, collaborative, and self-directed problem-solver. Ten years of experience in higher education, communications, and administration. Currently serve as Program & Communications Coordinator at The University of Texas System Administration for the last four years. Life-long learner and former educator. Proficient in Google Analytics, SEO meta-description and keyphrases (Yoast), creating surveys in SurveyMonkey and data visualization, as well as the Adobe Creative Suite.

### TECHNICAL SKILLS & PROJECTS

---

#### *Languages & Frameworks*

MERN stack, Python, HTML 5, JavaScript, CSS, jQuery, MySQL, MongoDB, Mongoose, Heroku, GitHub, User Authentication, Testing, Reactstrap, Bootstrap, Bulma, markdown

#### *Projects*

- **Weston Rose's Company Directory:** An employee directory built with React and a mock JSON data generated via <https://mocokaroo.com>. This app allows users to view non-sensitive data for all employees in a given company. Users can sort by first and last names in alphabetical and reverse-alphabetical order. Users can filter the list of employees by last name.
  - **Link:** <https://wrose001.github.io/employee-directory>
- **Budget Tracker:** This budget tracker app allows users to add expenses and deposits either online or offline. Transactions that occur offline are populated when the app is brought back online. A standalone manifest allows users to save to their smartphone home screen as an app.
